

We Provide More Than Just Repairs!

Our Classroom

We encourage you to use our classroom if any need arises. Please call ahead to schedule a date.

We also offer insurance classes to adjusters through our FLOW adjuster training seminars, and CE Credit Classes to all insurance agents.

I-Car and shop training courses are held throughout the year for our employees to help fine tune their skills and keep them current with new industry techniques.

We have a full commercial kitchen to provide hearty breakfasts for our staff and wonderful entrées for our class participants.
